

We value our first hand customers as well as second hand customers.  
Therefore we introduce RISK FREE SECOND HAND POLICY.

No matter where and how and from whom you buy the used Lampizator product, you have unique chance of risk free purchase.

HAVE HIM SEND IT TO US first instead of your address, and we will look inside, test it, measure it, clean it, check voltages and tubes, and pack it fresh with a certificate to you. All totally free !

You don't have to worry about this or that, the product will come to you in perfect working order.

There is a chance to add any paid works as well - like upgrade of caps, adding DSD, adding a forgotten input or output, and getting fresh packing or front panel. Since the product is already in the factory and being serviced, there is no better time.

Your additional cost of this service is only cost of shipping from Lampizator to you, as inbound shipping you'd have to pay with the ebay or audiogon seller anyway.

**This totally free service is our commitment to long term quality and customer's satisfaction.**
