

Introduced in February 2022 this **DAC** represents the world's highest standard in music reproduction, as well as craftsmanship and engineering.

KEY HIGHLIGHTS

- 🔊 Sound quality pushed to absolute limit
- 🔊 Unique conversion technology incorporating numerous proprietary solutions
- 🔊 Volume control of the highest possible caliber in every unit, featuring a full bypass function
- 🔊 CNC milled aluminium chassis, copper capacitors, silver wiring, gold contacts (Al, Cu, Au, Ag)
- 🔊 Zero opamps, zero transistors, pure tube output, pure resistor conversion
- 🔊 Hundreds of tube rolling combinations

Thanks to a revolutionary chip technology, like nothing we ever saw before - it was possible to create a **DAC** that creates a class of it's own. Never in the twelve years since Lampizator's founding have we taken on such an ambitious, expensive and labor intensive project.

From custom transformers, custom 4 layer PCB, 17 separate power circuits, ultra high end music conversion topology, customized muting solutions, proprietary firmware and software, the chip that revolutionizes the industry, new tube scheme, new tube selection, TRP (tube rolling paradise setup), new chassis, new heating scheme, new superb volume control with bypass feature, new uber cool nixie display, elimination of knobs, elimination of LCD and OLED displays, new USB solution with super-clocking, antivibration CNC milled support for all PCBs, elimination of visible screws - everything about this **DAC** is new, rethought and redesigned.

The resulting **DAC** is a true flagship. We can say with full confidence that you are getting a unique masterpiece of craftsmanship that will redefine what you believed possible and may never be surpassed.

Main parameters:

Digital inputs: 1 x USB, 1 x S/PDIF RCA, 1 x AES/EBU, 1 x TOSLINK 1 x i2s HDMI, 1 x i2s RJ45
 1 x analog input RCA 1 x analog input balanced XLR
 Balanced and SE circuits in every unit, analog preamp inputs, 64 step Volume with a bypass function

Colors:

1. Matt Black Hole
 2. Silver Stardust
 3. Duracell (Black body and copper top)
 4. Black body with any RAL top plate
- Packing in custom made flight case

Tube compliment:

1 x 5U4G rectifier or equivalent, 274B, 5Y3, 5C3S, GZ34, GZ37, GZ480, 5AR4WGB
 2 x 6SN7GT or adaptor fitted 6N1P, ECC99, ECC40, VT99, 6F8G, ECC88, 6922, 6DJ9 E88CC
 4 x EL34 or 6V6, 6L6, KT66, KT88, KT90, KT120, 6550, 5881
 Display: 2-digit Nixie display
 DSD: 512x; PCM: 768k
 Volume level: standardized 3V pp @00dB with every dac / every tube
 Weight: 33 kg / 73 lbs netto, 53 kg / 117 lbs brutto
 Dimensions without tubes: 440 mm [W] x 500 mm [D] x 160 mm [H] Tubes add circa 200 mm height
